

## NORWAY, SWEDEN, DENMARK PROTEST "RUTHLESS" WAR

### CUBAN REVOLT IS SAID SPREADING TO PROVINCE TROOPS

Secretary Lansing Warns People of Island Republic U. S. Will Not Recognize Government Established By Methods of Uprising

(Associated Press by Federal Wireless)  
HAVANA, Cuba, Feb. 14.—Fresh stories of the growing revolt reached the Cuban capital today.  
It is reported that Col. Baldomero Acosta, mayor of the town of Marianna, is declared to have led the rebels and to have engaged in a fight with the "rurales" or government forces, and that he was killed.  
Major-General Enrique Castillo has been wounded.  
President Menocal is quoted as admitting that the Cuban troops have revolted in Camaguey province.  
WASHINGTON, D. C., Feb. 14.—Secretary of State Lansing today sent a warning to the Cuban people that the United States will not recognize a government established in revolt.  
HAVANA, Cuba, Feb. 14.—Despatches from New York, published here this morning, declare that Senor Ferrera, speaker of the Cuban house of representatives, has cabled to President Menocal, demanding his resignation immediately, "unless you wish to leave your name as a curse to your children, as inseparably connected with an era of bloodshed of brothers, and the loss of the republic."

### U.S. Cavalry To Go Again Into Mexico?

(Associated Press by Federal Wireless)  
EL PASO, Tex., Feb. 14.—Reports today from El Paso, near which a supposed Villa raid took place on the morning of February 10, say that American cavalry may be sent across the international line into Mexico in an effort to rescue the three Mexicans who were captured on the raid and have been taken into Mexico to be held, or else murdered.  
The band of armed Mexicans are said to have been commanded by Col. Prudencio Miranda, who is understood to be one of the Villista commanders.  
Two cavalry troops are now on the trail of the bandits, searching for them.

### DIET OF GERMAN SAILORS PLAIN BUT PLENTIFUL

Although some of the German merchant sailors kept in detention at the U. S. immigration station for nine days until their release Monday afternoon under orders from Washington assert the food they received was not any too good nor too plentiful, sample menus furnished by the immigration officials indicate that the meals were substantial enough for anyone and far better than those many working men of Honolulu get at home.  
Deputy Inspector Harry B. Brown today furnished the Star-Bulletin with sample menus for breakfast, lunch and dinner served the seafaring Germans during their stay at the immigration station. The officials allowed 36 cents a day for subsistence of each man. The army's subsistence allowance ranges only from 27 to 30 cents a day. The allowance for the Germans was much more liberal than for the Oriental immigrants detained at the station. On the day following their arrival at the station the German officers and men, according to Brown, were served the following items of food at each meal:  
Breakfast—Baked beans, bread and butter, coffee.  
Lunch—Pork chops, boiled potatoes, tea or coffee, bread and butter.  
Dinner—Beefsteak and potatoes, bread and butter, tea or coffee.  
All through the men's stay the daily menus consisted of food just as substantial and plentiful as this. On various occasions the meats on the bill of fare included hamburger steak, roast beef and plentiful helpings of beef stew.  
"That's better than I generally get at home," was the remark of a customs inspector this morning when he heard what kind of "chow" the sailors had been getting. "I think it's probably a heap sight better than they get aboard ship."

### Market Weak; Prices Droop

#### NEW YORK STOCK MARKET TODAY

Following are the closing prices of stocks on the New York market today, sent by the Associated Press over the Federal Wireless:

	Today	Yesterday
Alaska Gold	9 3/4	7 1/2

### CARNIVAL OPENS AT 2 ON MONDAY; KINGS WON'T LAND

International Situation Causes Change, to Avoid Congestion on Harbor; Program of the Opening Day Outlined

Hawaii's 1917 Carnival will formally open at 2 o'clock next Monday, and with this announcement comes notification of an important change in the plans for the Pan-Pacific pageant, which is the opening event.  
Originally it was planned to have this begun with the landing of the Carnival kings at 12 noon, foot of Fort street. The "war scare" made a change necessary. The Carnival management was notified that it might be necessary to stop all crossing of the harbor by vessels except on necessary errands, and thus abruptly ended the plans for the "landing of the kings."  
The kings—representing races of all

### TO URGE SECOND POLICE TRIBUNAL

A bill providing for the appointment of a salaried second district magistrate for Honolulu, whose duties will be the handling of juvenile and civil cases, will be introduced in the legislature by Representative-elect Lorrin Andrews.  
Andrews says, "This work rightly belongs to a magistrate. Such a second magistrate could handle juvenile cases in the morning and civil cases in the afternoon. I believe that the first magistrate should devote his entire time to the criminal calendar."  
Attorney Andrews says he also intends to ask the legislature to raise the pay of certain court officials. "Some of these officials are very much underpaid," he added. In his conversation he referred to circuit court interpreters and intimating that these officials will be included in the proposed measure.  
He is also planning a bill which will provide that, in case of accidents, an automobile may be held responsible for any damage. That is, the injured person may levy upon the automobile, thus making the machine responsible as well as the owner.  
A bill whereby the legislature will approve and invite a federal survey of the schools of the territory is also proposed by Andrews. He also has in mind a bill making homesteads exempt from sale "so that the poor people will be protected."  
"And I'm going to ask an amendment of the frontage tax law," he asserts, "which will protect poor people from the present unjust levy."

### Hawaiian and Texan, W. H. Heen And S. B. Kemp, For Circuit Judges

President Wilson This Afternoon Nominates Deputy Attorney-General and Assistant U. S. Attorney for Vacancies on Bench; Some Surprise Shown in Legal Circles

(Special Star-Bulletin Cable)  
WASHINGTON, D. C., Feb. 13.—President Wilson this afternoon nominated William H. Heen as third judge and Samuel B. Kemp as second judge of the first circuit court of Hawaii.

C. S. ALBERT.  
The foregoing cablegram, received by the Star-Bulletin this morning, bears out, especially with regard to the nomination of Judge S. B. Kemp, this paper's forecast of several weeks ago when the Star-Bulletin printed the prophecy that Kemp would be given one of the circuit judgeships.  
Judge Kemp is assistant U. S. attorney for Hawaii, having come here from Texas a year ago last Thursday. Heen, who is an island boy, is deputy attorney-general for the territory. The Bar Association recommended Judge John T. De Bolt for the second judgeship and Attorney Cornell S. Franklin for the third judgeship. The nomination of Kemp and Heen is another instance of the disregard by the department of justice of recommendations of the local bar.  
It had been irrefutably predicted in legal and court circles that Heen was in line for one of the judgeships, although Franklin was reported to be in good standing with the department. Judge Kemp was taken from a bench in Texas and brought to Hawaii as assistant U. S. attorney, with the understanding that, if he made good, he would be promoted. The salary of the local office was raised upon Kemp's arrival. In spite of these indications of judicial promotion, some surprise

WILLIAM H. HEEN

was shown in legal circles today when the news came to the Star-Bulletin and became current.

The nomination of Kemp and Heen will leave two vacancies to be filled—deputy attorney-general and assistant U. S. attorney. It is probable that the former position will be filled by a local man and the latter by a mainland.

Heen to Be Youngest Jurist  
William H. or "Billy" Heen, as he is

SAMUEL B. KEMP

generally known, will be the youngest judge in the territory when he is confirmed and takes the oath of office. He was born March 11, 1883, on Maui, and is therefore not yet 34 years old. He was educated in old Hawaii college under the noted Bishop Willis and

### BERLIN NOTIFIED OF ATTITUDE BY SCANDINAVIAN COUNTRIES; GERMANY AVOIDING HOSTILITIES

Semi-Official Announcement That Negotiations to Prevent Break Between U. S. and Austria Show Germans Loaths to Sever Last Bridge—Few Victims Today in Submarine Campaign

(Associated Press by Federal Wireless)  
LONDON, Eng., Feb. 14.—The Scandinavian countries are making formal protest to Germany's ruthless U-boat warfare.

A Reuter's despatch says that Norway, Sweden and Denmark have handed to the German ministers at their respective capitals identical notes protesting against the German naval measures announced in the recent proclamation for "unrestricted" warfare, and making reservations now regarding the loss of life and material damage which may result from the policy. The reservations foreshadow claims against Germany later on.

LONDON, Eng., Feb. 14.—Negotiations are being carried on now between Count Czernin, the Austrian minister of foreign affairs, and U. S. Ambassador Frederick C. Penfield, with a view to avoiding a rupture between the United States and Germany, according to an announcement in the semi-official Lokal Anzeiger of Germany.

Austria, it is said, has so far refused to modify her endorsement of Germany's proclamation of "unrestricted" naval warfare, but the negotiations are said to be for the purpose of reaching a harmonious understanding with the United States.

The Anzeiger declares that Berlin prefers that the last bridge of communication between the Teutons and the United States be unbroken.

The negotiations are said to have reached no definite result as yet, but there will probably be a statement soon.

### Three Vessels Reported Sunk Today

LONDON, Eng., Feb. 14.—Reports for most of the day here show that there has been comparatively slight destruction of vessels in the new "unrestricted" submarine war of the last 24 hours. The only new victims reported so far are the British steamer F. D. Lambert, sunk, with the crew landed, and two trawlers sunk, according to Lloyds agency and Reuter's despatches.

### Say German Children Die by Bombs

BERLIN, Germany, Feb. 14.—An Overseas News Agency despatch today says that 16 children were killed at Bruges last Saturday by bombs which British aviators dropped. The children are said to have been skating when the bombs fell among them and killed more than a dozen, injuring many others.

### Teutons Win a Victory in Rumania

BERLIN, Germany, Feb. 14.—Two British attacks south of Serre, on the west front, were repulsed today in violent hand-to-hand fighting, according to official announcement.  
In Rumania the Teutons stormed Russian positions and held their ground later on in spite of violent counter-attacks.  
More than 1200 prisoners were taken and much booty.

LONDON, Eng., Feb. 14.—The war has cost Germany up to today sixty billion marks (approximately \$15,000,000,000).

### BERNSTORFF EN ROUTE FOR HOME NAVAL WIRELESS EXPERT TO COME

(Associated Press by Federal Wireless)  
WASHINGTON, D. C., Feb. 14.—Count von Bernstorff, former German ambassador to the United States, left this city yesterday afternoon for Berlin, via New York, with the expression of a hope that "war may be averted and that the friendly relations between the two countries—yours and mine—may soon be restored."

The train in which the former ambassador went to New York was most carefully guarded by secret service men, who had instructions not to allow any unauthorized person to get near to the diplomat, and to see to it that nothing was allowed to interrupt the journey.  
At the dock in New York every possible precaution was taken to prevent a possible tragedy at the hands of some crank. The train, after passing under the river, was switched down the waterfront to the dock where the Swedish liner, on which the diplomat and his suite intend to make the passage, was lying, and brought to a standstill a block and a half from the pier, which was guarded with more than 200 police and special officers. Nothing was omitted to safeguard the German envoy.

The Baroness Zwiedinek, wife of the Austrian charge d'affaires, arranged to depart with the Bernstorff party. In some circles this was taken as significant that the diplomats of the dual monarchy expected a breaking off of relations between this country and theirs, but at the Austrian-Hungarian embassy it was asserted that the baroness merely was taking advantage of a good opportunity to leave here on a visit to her children in Vienna.  
George I. Hanscom, radio expert, who supervised the installation of the plant at New Chollas heights, San Diego, will arrive in Honolulu on the March transport to help with the installation of the big station at Pearl Harbor.  
Although the Chollas plant is considered very powerful, the local station is to be of twice its strength, being equipped with a 350-kilowatt set. The station at San Diego is now the most powerful on the coast. It is said that the one here will be capable of sending messages to all parts of the globe.  
A large number of the men who have been working on the California station for several months have been ordered to Honolulu, sailing on the March transport, which is due here about the 13th of next month.  
Warren E. Lee, state deputy comptroller of New York, resigned his position for a more remunerative one in the same department. His new job will be assistant to Corporation Tax Attorney Lafayette B. Gleason.  
monarchy expected a breaking off of relations between this country and theirs, but at the Austrian-Hungarian embassy it was asserted that the baroness merely was taking advantage of a good opportunity to leave here on a visit to her children in Vienna.

### OAHU SUGAR CO. OWNER OF LAND, WHITNEY DECIDES

Court Decides That Company Can Retain Valuable Property Upon Which Many of Its Improvements Stand

Lands valued at approximately \$1,000,000, which have been utilized for many years by the Oahu Sugar Co., may be retained by the company as the legal owner under a decision completed Tuesday afternoon by Circuit Judge W. L. Whitney.  
The decision decides an ejectment suit brought by Mrs. Helen Kinney against the Oahu Sugar Co. Judge Whitney's finding is of importance to the company as on the land in question are situated 22 artesian wells and the plantation's entire pumping equipment, consisting of six separate plants. Fifty-three acres of land are planted in cane. One of counsel for Mrs. Kinney said today that plaintiff undoubtedly would appeal.  
Mrs. Kinney claimed an undivided one-third of the land as the heir at law of one Nulli (w) and Kahaleaue, her husband, defendant claimed the land as purchaser from Mark P. Robinson, who purchased the land in foreclosure proceedings on a mortgage given by Kahaleaue and Keolohapua during their lifetime, and who also took a quitclaim deed from them, and from the surviving two children of this couple, Lydia Kamae, now Mahoi, and George Keolohapua.

On December 15, 1890, the decision says, Kahaleaue et al gave a mortgage on the land in question to Messrs. Bishop, Paty and Damon, doing business as Bishop & Co., and that this mortgage was assigned by one Peter Dalton, and that the mortgage was duly foreclosed and the land sold in foreclosure sale to C. R. Bishop. On October 23, 1894, Bishop conveyed the land to Robinson by a quitclaim deed and to the Oahu Sugar Co.  
"If, therefore, a fee simple was created, the mortgage, the sale thereunder, the purchase by Charles R. Bishop and the conveyance through the defendant—all are legal and the decision and judgment must be for the defendant," the decision concludes.

### WAIHOLE WATER CO. NEWEST ENTRY INTO KAHANA LAND ACTION

Further extension of the Kahana land case, now before Circuit Judge Whitney, is forecast by the entrance into the litigation of the Waihole Water Company, which claims easements for water in all the lands of Kahana. This extension cannot be avoided should it be held that the land court cannot settle the points raised

### BROWN MATTER WILL NOT GO TO GRAND JURYMEN

No Occasion for Such Action, Declares Circuit Judge Ashford

Circuit Judge Ashford will not refer to the territorial grand jury charges of alleged "procrastination" on the part of City Attorney A. M. Brown with regard to the non-trial of criminal cases in circuit court.

Neither will he take up for trial any criminal cases now pending.  
In a statement in open court this morning Circuit Judge Ashford made the foregoing assertions and punctuated his remarks with emphasis. He said, in effect:

"There is no occasion to refer this matter to the grand jury. The court knows as much about this matter now as the grand jury would after an investigation. The court knows that there is no fault attached to the office of the city and county attorney for the non-trial of criminal cases in this court."

"On the contrary the city attorney has urged me to take up the criminal calendar. But I can find no reason for setting aside my own regular work to take it up. At the urgent request of City Attorney Brown I had intended to take up the criminal calendar next Monday, or during the succeeding week, but the news of the nomination of the new judges convinces me it is unnecessary."

In a letter to Judge Ashford Monday, Attorney Brown asked that the grand jury be charged to investigate allegations in an Advertiser editorial to the effect that Brown was to blame for the delay in the trial of criminal cases. He also addressed a letter to Walter F. Frear, president of the Bar Association, asking that the bar conduct a similar investigation.

by the Waihole Company, say attorneys interested in the case. Counsel for the company have until next Monday to file their answer.

It has been agreed among counsel that the Kahana case be referred to Judge Whitney as master, who will then make his findings. It is also likely that the case will be transferred to Judge Ashford's division if Judge Whitney leaves the circuit bench before the expected appointment of W. H. Heen and S. B. Kemp as circuit judges.

The Baltimore Sun announced recently that owing to the increased cost in paper and other materials the Sun's combination of six morning and six evening issues and the Sunday Sun at the rate of 13 issues for 10 cents a week, will after February 1 of 13 cents a week.  
In the front of a large London building there was recently found a pigeon's nest made of hairpins.
